2022 Lower Delaware Wild & Scenic River Mini-Grant Program

The Lower Delaware Wild & Scenic (LDWS) River Management Council announces the availability of 2022 Wild & Scenic Mini-Grants. These grants are intended for projects that support and enhance the goals of the LDWS Management Plan.

Application Deadline

Grant applications will be accepted by email through **5:00 PM on Friday, January 7, 2022**. Send to ldwsgrants@delawarivergpp.org. Use "W&S Mini-Grant Proposal" in the subject line.

Award Decisions

The Steering Committee of the Lower Delaware Wild & Scenic River Management Council will serve as the selection committee. Committee members with personal conflicts will be recused from scoring applications. Awards will be announced via email by January 31, 2022. (Date subject to change.)

Grant Funding

Typical grants awarded are \$5,000 or less, however larger grants will be considered for especially compelling projects. Fifty percent of the award will be provided prior to the start of the project. The balance will be paid once the project is completed and a final report and invoice are submitted. LDWS reserves the right to not issue 2022 mini-grants pending federal funding announcements.

Project Timeline

Projects must be completed by September 15, 2022 with final reports and invoices due on the same day. No extensions will be granted.

Who May Apply

Only new projects being completed in and benefiting the LDWS corridor will be eligible. See the LDWS [outreach map](#) to verify locations within the boundaries of the corridor.

The following eligible entities within the Lower Delaware Wild & Scenic corridor in New Jersey and Pennsylvania may apply:

- Municipal appointed community committees who have completed LDWS Memorandum of Understanding (MOU) are eligible
- Schools
- Community or non-profit 501(c)3 organizations operating within the watershed
- Government entities including municipalities who have completed LDWS Memorandum of Understanding (MOU), counties, and the State of New Jersey and Commonwealth of Pennsylvania

Project Preferences

- Prior LDWS mini-grant winners may apply. However, preference will be given to organizations who are not past recipients of the mini-grant program.
- Projects part of a partnership benefiting multiple entities will be given preference. One entity should be identified as the lead applicant.
- Stronger consideration will be given to proposals that address more than one Management [Plan](#) goal as well as projects leveraging outside funding.
- For the 2022 program, preference will be given to projects focusing on flood mitigation, stormwater management, as well as river and/or storm safety education and outreach. These projects would fall under the water quality and/or natural resource goals of the Management Plan. Such projects could include but are not limited to:
 - The offer and distribution of free/discounted rain barrels
 - Creating a demonstration rain garden landowners can replicate
 - The planting of riparian buffers
 - Naturalizing stormwater basins
 - Outreach and education projects on storm safety to address the dangers of river use during and after storms and how to determine when the river is safe for recreation

Lower Delaware Wild & Scenic Management Council Goals

Projects consistent with the LDWS management plan and that further Management [Plan](#) goals are eligible.

Goal 1: Water Quality

Maintain existing water quality in the Delaware River and its tributaries from measurable degradation and improve it where practical.

Goal 2: Natural Resources

Preserve and protect the river's outstanding natural resources, including rare and endangered plant and animal species, river islands, steep slopes, and buffer areas in the river corridor and along the tributaries.

Goal 3: Historic Resources

Preserve and protect the character of historic structures, districts, and sites, including landscapes, in the river corridor.

Goal 4: Recreation

Encourage recreational use of the river corridor that has a low environmental and social impact and is compatible with public safety, the protection of private property and with the preservation of natural and cultural qualities of the river corridor.

Goal 5: Economic Development

Identify principles for minimizing the adverse impact of development within the river corridor and to encourage sustainable development where appropriate.

Goal 6: Open Space Preservation

Preserve open space as a means of maximizing the health of the ecosystem, preserving scenic values, and minimizing the impact of new development in the river corridor.

Eligible Projects

Mandated mitigation projects, permit requirement studies and capital or construction projects are not eligible. Additional project ideas include but are not limited to:

- Conservation, restoration or enhancement of fish, wildlife, riverine ecology, water quality, historic or recreational resources
- Protection of land along the river or its included tributaries
- Public education about the river and its resources and importance
- Research studies that increase understanding and lead to improved management of river resources
- Promotion of responsible recreation to encourage people to use and protect the river

- Invasive species management
- Water conservation education and implementation
- Protection of natural river flow regimes
- Projects that engage students in the arts and sciences related to river resources
- Efforts to plan and manage for climate resilience

Application Deadline and Submission

Grant applications will be accepted through 5:00 PM on January 7, 2022, via email to ldwsgrants@delawarivergp.org. Applications sent by snail mail will not be accepted. Interested parties must submit a completed 2022 application along with required supporting materials. See the application for details.

- **Match.** Those with a project match should attach verification of funds.
- **Material Submission, Organization, Size Limitation.** See the details and instructions in the application sheet with the required information. Organize replies in the order as found in the application. Submit a single PDF in 8 ½ x 11 format to ldwsgrants@delawarivergp.org. Applications submitted with more than a single document, will not be accepted. A total of 8 pages is permitted.
- **Acknowledgement.** Applicants will receive an email acknowledging receipt of the submission. LDWS is not responsible for missing applications that were not acknowledged.

Review Criteria

The merits of each proposal will be reviewed based on the criteria listed below. Projects do not have to meet all criteria to be eligible.

1. **Wild and Scenic Outstanding Resources.** Does the proposed project protect, enhance, or promote appreciation of one or more of the river's outstanding resources?
2. **Stewardship.** Will the project strengthen relationships among communities, non-profits, and/or the public that will protect river resources?
3. **Awareness.** Does the project engage diverse partners and/or raise public awareness of the river?
4. **Resources needed for implementation.** Can the project be completed with the funding available and within the timeline proposed?
5. **Long-term benefits.** Can future activities or decisions of the river communities or regional or state entities build on the results of the project?
6. **Sustainability of benefits.** Is there a plan for maintenance or ongoing work (if relevant) after the project is completed?
7. **Leveraging of additional resources.** Are there matching funds or in-kind contributions to the project? These are not required, but strongly recommended.
8. **Measurable results.** How will the effectiveness and impact of the project be measured?
9. **Administrative capacity.** Is there demonstrated capability on the part of the applicant to complete the project?

Grant Recipient Obligations

- **MOU & First Invoice:** Upon selection, awardees must complete a LSWS Mini-Grant Memorandum of Understanding (MOU) and submit an invoice for fifty percent of the grant amount.
- **Status Reports/Presentations:** Awardees may be contacted for a status report of their project. Attendees are required to attend the December 2022 LDWS Management Council meeting to present their projects.
- **Final Report & Invoice:** A final report and final invoice for the grant balance is required by September 15, 2022. Reports should include a project summary of actions and activities, not to exceed two pages. Any press releases, products and other pertinent materials should also be included. Before and after photos are required, if applicable. Photos must be high-resolution JPG images that are at least 300 dpi and not copyright protected.

- **Public Grant Acknowledgement:** Awardees must acknowledge Wild & Scenic grant funding in all organizational communications and grant products related to the project. Failure to do so will nullify LDWS's obligation to make final payment. Acknowledgements should read,
"This project was funded in part/full by the Lower Delaware Wild & Scenic Management Council with support from the National Park Service. (Insert NPS Logo and LDWS Website Address.)"
